# RETRACTABLE FALL ARRESTER BLOCK

A self-retracting lanyard (SRL) is a vertical lifeline that is used as part of complete fall arrest system. The lifeline much like the seat and shoulder belt in a car, pulls out and retracts easily.

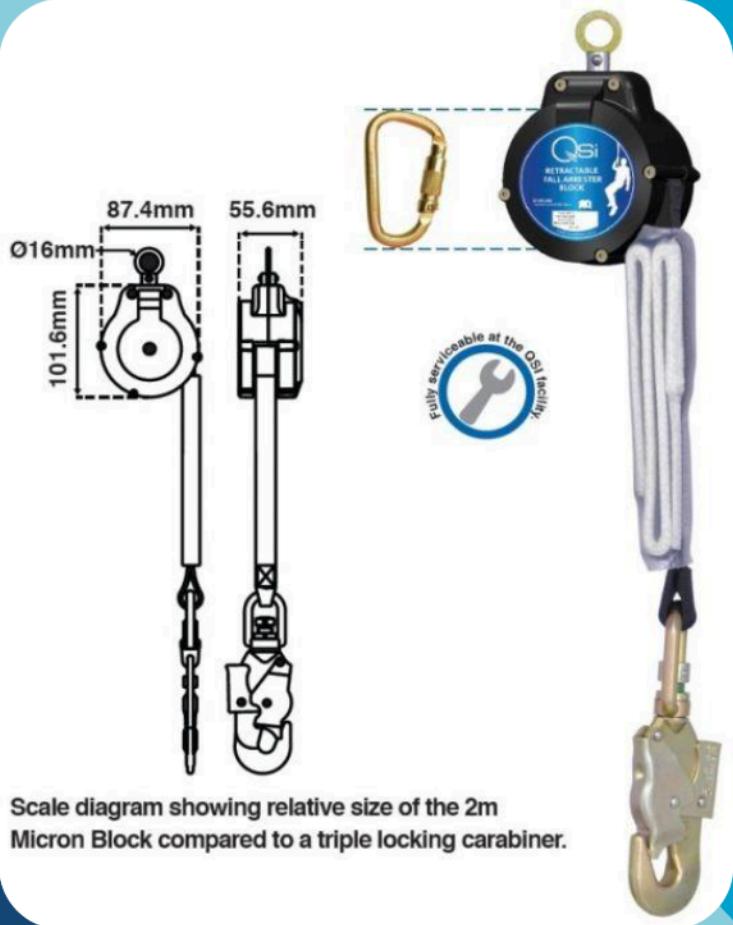

Retractable fall arrester comes in different sizes

Retractable Fall Arrester Block 6mtrs

Retractable Fall Arrester Block 10mtrs

Retractable Fall Arrester Block 15mtrs

Retractable Fall Arrester Block 20mtrs

# LOAD TESTING

Load testing is performed to determine a system's behavior under both normal and anticipated peak load conditions. It helps to identify the maximum operating capacity of system.

Load testing is done after placing of Lifeline system on site

During load testing the reading should be taken by digital meter, which was attached with load cell
